STARTING UP

Set up your PlayStation®2 computer entertainment system according to the instructions in its Instruction Manual. Make sure the MAIN POWER switch (located on the back of the console) is turned on. Press the RESET button. When the power indicator lights up, press the open button and the disc tray will open. Place the *KLONOA 2 Lunatea's Veil* disc on the disc tray with the label side facing up. MEMORY CARDS

This game uses 370KB of space on a memory card (8MB) (for PlayStation®2). The first time you play, you can create a file region for *KLONOA 2 Lunatea's Veil* on the memory card (8MB) (for PlayStation®2). Each memory card (8MB) (for PlayStation®2) can save up to 4 names, and each of those in turn can handle four saves. However, multiple file regions cannot be created on a single memory card (8MB) (for PlayStation®2).

* See page 27 on how to save.

GAME CONTROLS

Here's an explanation of the controls. Use the 1P controller for Klonoa and the 2P controller for Popka.

ANALOG CONTROLLER

Controls are as follows. For more detail, see page 4.

DUALSHOCK™2 ANALOG CONTROLLER CONFIGURATIONS

* This game does not support the vibration function.

* When switched to Analog Mode (LED:ON), the Left Analog Stick can be used like the Directional Buttons to control Klonoa and make menu selections.

STORY

Welcome to the enchanted world of Lunatea.

In each of Lunatea's four Kingdoms, there exists a very special item called the Harmony Bell. These Harmony Bells are responsible for maintaining peace throughout Lunatea.

However a Fifth Bell, belonging to none of the Kingdoms, is about to appear in Lunatea. This Fifth Bell brings Chaos with it, causing monsters to run amok and priestesses to fall ill.

Lunatea's best prophet, Baguji the Wise, divines that a Dream Traveler would appear in their time of need, and that a Ring would be the key to Lunatea's salvation.

Then one day, Klonoa meets the apprentice priestess Lolo and Popka at the Sea of Tears.

"I'm Lolo, the apprentice priestess."

"This is Popka."

"I'm Klonoa."

"So Klonoa...is the name of the Dream Traveler..."

"Please Klonoa, won't you help us?"

What is a "Dream Traveler"?

And Lunatea?

Though Klonoa hasn't a clue, his curiosity gets the better of him. Blowing caution to the wind, he joins Lolo and Popka on their quest to save Lunatea.

And so the adventure unfolds!

GAME DESCRIPTION

KLONOA 2 Lunatea's Veil is an action game in which Klonoa's adventures consist of clearing various Visions and battling formidable Bosses. The basic game contents will be explained below.

What are Visions?

The modes in which you control Klonoa and enjoy the game are called Visions. There are two types of Visions: one where you defeat enemies and collect Items, and another that consists only of Boss Battles. Clear Visions by using Klonoa's Ring to capture enemies, throwing captured enemies, and performing Double Jumps or other moves.

What is the World Map?

Klonoa can move freely over the World Map and choose which Visions to play. You can replay Visions over and over, or just follow the story. You're free to choose the path that appeals to you most!

New to Klonoa 2

In addition to the regular Visions in *KLONOA 2 Lunatea's Veil*, there are Visions that take place while riding on Hover Boards. These Visions allow you to enjoy adventures of a slightly different flavor.

You can also use the 2P controller to control Popka, so that he can assist Klonoa as needed. Use teamwork to complete the Visions.

GETTING STARTED

Here's how to get started. Follow the directions to get ready for your adventure.

STATUS SCREEN and PUPPET DISPLAY

The Status Screen shows Items gathered and the details of each Vision cleared. The Puppet Display shows the characters' messages.

The Momett Dolls acquired so far are displayed here. Try to acquire as many as possible to complete the collection.

Acquiring 150 Dream Stones or more will open up additional surprises.

PUPPET DISPLAY

The Puppet Display shows the character's conversations. Details about the adventure are covered in these conversations, so be sure to listen closely. Press the **×** or **○** Button when you're ready to play the next message.

It is also possible to fast-forward a message by pressing the **○** Button. Pressing the **START** Button once will skip the messages entirely.

ITEMS

There are two types of Items, those acquired by touch, and those acquired only through fighting.

ITEMS ACQUIRED VIA TOUCH

Klonoa can pick up these items just by touching them.

Dream Stone (small)

Collecting 100 of these will increase Klonoa's remaining lives by one.

Dream Stone (large)

One of these equals five small Dream Stones.

Key

Some doors can't be opened without one.

Heart (small)

This will restore Klonoa's health meter by one level.

Heart (large)

This will restore Klonoa's health meter by two levels.

1 UP COIN

This will increase Klonoa's remaining lives by one.

ITEMS ACQUIRED VIA ATTACK

Obtain these Items by hitting them with a Wind Bullet or a captured enemy.

Memory Clock

When Klonoa loses a life, the game will restart at the location of this clock. All Items acquired up to this point will be recovered.

Ngapoko Egg

Contains items helpful to Klonoa, such as Dream Stones or Hearts. Reveal the contents of an egg by throwing an enemy at it.

Mirror Spirit

A Mirror Spirit doubles the Dream Stones that Klonoa acquires.

Momett Doll Bell

There are six Momett Doll Bells in each Vision. Each time one is acquired, the Momett Doll Tracker appears on the Vision Screen. Clear the Vision with all six Bells to acquire a Momett Doll. Check out the doll collection in the Momett Doll Case on the Status Screen.

MECHANICS

Take advantage of various mechanics to get Klonoa through the adventures but keep in mind that each mechanic has unique properties.

Goomi

Hit one with a Wind Bullet to hang from them. Some Goomis can also move. Use them to get Klonoa around.

Whirlwind

Touching one will bounce Klonoa up and over. Use the Directional Buttons to adjust Klonoa's trajectory in mid-flight.

Box

Throw an enemy at them to break one open. They often contain rare items, so be sure to check them out.

Swing Ship

Throw an enemy at it to make the ship swing. Use a Swing Ship to access higher places.

Fordon

Touching one will get Klonoa sucked in, then shot out over long distances. Use them to get Klonoa around.

Time Switch

These turn off after a set period of time passes. Triple Switches are not activated until all three switches are moving simultaneously.

Switch

Activate these by shooting a Wind Bullet or by throwing an enemy into it. Switches open doors and activate mechanisms.

On/Off Switch

It switches On/Off when hit with a Wind Bullet. Open up paths by experimenting with various switches.

PEOPLE OF LUNATEA

Klonoa

An energetic and inquisitive boy, he is referred to as the Dream Traveler in this enchanted world. He is unwittingly drawn into an adventure, which will determine the fate of this world.

Lolo

A girl who meets Klonoa at the Sea of Tears. Although she hopes to become a priestess in charge of peacemaking across the world, she keeps failing the test. But she keeps trying in spite of this, and doesn't let it get her down.

Popka

Loud mouthed, pushy, and insensitive, he isn't the ideal partner by any means. However, deep down inside he cares for Lolo greatly, and supports her from the sidelines.

Leorina

A female sky pirate who is attempting to awaken the Fifth Bell. This in turn will bring Chaos to Lunatea. Cool-headed and clever with her dirty tricks, she places Klonoa in constant peril.

Tat

Leorina's saucy sidekick, she pops up under Klonoa's nose time and again, and trouble is usually not far behind.

Baguji the Wise

He is a mysterious prophet of unknown origin, who makes his home beneath a giant tree. He is responsible for sending Klonoa and Lolo out on an adventure to save the world.

Momett the Showman

He is an entertainer from Joilant, the Kingdom of Joy. He gradually creates more and more attractions as he comes up with ideas for new ones, while watching Klonoa in action.

ENEMIES

Various enemies are encountered during Klonoa's travels throughout the land of Lunatea. Find their weaknesses and use them to your advantage.

Giant Moo

A Moo that has grown quite large after ingesting Dream Stones. It can't be captured but you can jump on top of it, if you first hit it with a Wind Bullet.

Moo

A cute character who also happens to be an enemy. It haplessly wanders along on its merry way.

Armored Moo

The tough armor on this Moo will deflect Wind Bullets, but throwing a captured enemy at it will destroy its armor.

Kiton

Catch it with a Wind Bullet, then press the Jump Button repeatedly to fly in the sky. The height can be adjusted by varying the number of times you press the Jump Button.

Spiker

Shooting Wind Bullets or throwing captured enemies at it have no effect whatsoever, so there's no choice but to leave it alone and get by.

Digon

A giant violent fish which inhabits the rivers and bogs of Lunatea. Like the Spiker, it is invincible to attacks, so you must leave it alone.

Jetimo

Upon capture, it flies high into the air but you can't get rid of it until it explodes.

Boomie

This character explodes after a set amount of time elapses. Once it starts to glow, watch out! Throw it against a wall and it will fall straight down and explode once the time elapses.

Spindle

Its hard shell deflects any and all attacks from the side. Try to jump above it and attack from above.

Ow-Gow

They live in caves and shafts, and try to eat anything that passes in front of them. Throw an enemy at it, and try to slip past while the Ow-Gow is eating.

Erbil

Capture one and perform a Double Jump. This will electrify Klonoo and allow him to defeat enemies by flying into them.

Likuri

Capture one and throw it against another enemy. It will not only change its color, but it'll return to you as well. The sequence of color changes is yellow, blue, then red depending on the number of times it hits another enemy.

GAME HINTS AND TIPS

In *KLONOA 2 Lunatea's Veil* there are areas which require the use of enemies to move forward, and Items which are hidden from view.

Find Hidden Items

Some Items can't be seen until Klonoa touches them. Look closely at the ground to find an occasional odd shadow, then jump above it to find the hidden Item.

Use Enemies

It is important to make good use of enemies in this game. A Kiton will help Klonoa to fly in the air and to reach high places. A Boomie will explode after a set amount of time elapses, and is indispensable for solving puzzles which use time delays.

Don't forget to throw a captured enemy at boxes marked with an X. This will open up blocked paths or reveal hidden Items.

Acquire Momett Dolls

There are six Momett Doll Bells in each Vision. A Momett Doll is acquired when all six Bells are collected and the Vision is cleared. Collect all the dolls and take them to Momett's House...then see what surprise awaits...
